

INDUS II PANEL (COI)

LED panels revolutionised lighting in commercial and retail spaces and our market-leading products and options are ready to meet your every application. Our quality reflects our focus on flexibility; a flexibility that ensures the best lighting outcome for every client. The ultra slim profile fits seamlessly into any workplace and can be T-bar, plaster recessed, surface mounted or suspended. The micro-prismatic diffuser delivers low-glare and our LED selection ensures excellent colour rendering to further enhance the comfort and efficiency of the lit space.

Applications: Offices, educational, retail stores, supermarkets, hospitals, health services etc.
