

HERO ST-A823

The Hero series offers precise optics with a unique stylish appearance. No gearbox is required due to a driver in-track adapter offering better heat dissipation and superior spot lighting with a high-quality optical lens. This compact luminaire offers powerful accent lighting, paired with our market-leading energy efficiency and colour rendering. With a range of output levels and beam angles, the Hero series matches its namesake in retail, hospitality and general display lighting applications.

All our fixtures fit standard three-circuit track and adjust easily through 90° in the vertical plane and 355° in the horizontal plane.

The Hero series is available in track and recessed spot. The recessed option allows the body to be recessed into the ceiling.
