

LEVI DR-A097

With a UGR <12, this mini system is a recessed luminaire that can double as a spot or wall washer. Perfect for foyers, office spaces, shopping centres, art galleries and many other applications the Levi range offers luminaires that blend into the architecture due to their streamline and compact housing.

Multi lumen packages due to the multiple connections of the single body (up to 8 modules can be connected) enables the lighting to meet requirements for various uses and conditions. With low UGR the Levi is optimised for uniformity and visual comfort.

Available in recessed downlight, surface downlight or wall washer.
