

## NEON FLEX - TC TYPE

Flexible strip lighting is an effective and economic way to highlight architectural elements or illuminate other areas to particular affect. The new Neon Flex series offers a new style in eco-friendly material. Available for both indoors and outdoor applications, the Neon Flex offers easy installation.

The Neon Flex can be cut every 5-10cm without damaging the rest of the strip.

TC Type offers top emitting dot free illumination with bendable direction vertically and 150° beam angle.

Enquire for the range of end cap options and aluminium profiles.

### PRODUCT FEATURES

- Light output, up to 1,380Lm/M
- Life time: L70 (9K) >54,000 hours
- Ideal for all applications
- 5000mm roll (standard)
- CCT options 2500-6000K
- Silicone coating, UV resistant, yellowing resistant, flame resistant
- No light leakage
- IP67 dual injection-moulded front & end caps
- Beam Angle: 150°
- 7 LEDs per unit LED strip
- LED Quantity: 140pcs/M / 160pcs/M
- Dimming options on request
- Flex and plug or direct connection
- Five Year Warranty

Model	Lumen Output	System Power	CCT	LEDs/M	LED Width
LPA-NF-TC10-13W	1064Lm/M	13W/M	2500-6000K	140 LEDs/M	10x10mm
LPA-NF-TC10-13W	1380Lm/M	13W/M	2500-6000K	160 LEDs/M	10x10mm

Beam Angle	CRI	Material	Voltage	Colour	Dimming Options
150°	>80	Eco friendly silicone	24V DC	Opal/Aluminium Mounting	Available on request
